

Hi there,

Welcome to the June 2020 edition of the LIRA newsletter. In this month's newsletter, we have information on a call for Transformative Healthcare Technologies and updates from Robotics Week...

UKRI has made a second call for proposals for [Transformative Healthcare Technologies](#)

UKRI has made a second call for proposals for [Transformative Healthcare Technologies](#). It targets projects that are guided by a long-term vision to pursue new, 'high risk high reward' ideas and develop thinking and approaches supported by the next generation of science, engineering and emerging technologies. The closing date is Thursday 30th July.

For more information, visit [UKRI's website](#) or contact us at [UKRI](#).

The UK-RAS Robotics Week ran from 22nd- 28th June. The week was a seven-day celebration of robotics science, showcasing hundreds of events ranging from school competitions and challenges to lectures, open days, symposia and workshops. To find out more, and for the latest updates, visit the [UK-RAS website](#), or
