Degree Outcomes Statement

1. Degree classification profile

	Academic year						
Honours degree classification	2016/17	2017/18	2018/19	2019/20	2020/21	2021/22	
First class honours degree (1st)	25%	30%	29%	35%	40.3%	35.7%	
Upper second class (2.1)	51%	49%	51%	51%	48.5%	50.4%	
Lower second class (2.2)	20%	18%	18%	12%	11%	13%	
Thirds class honours/Pass	4%	3%	2%	2%	0%	1%	
Student numbers	2676	2823	2826	2882	3192	3521	

76%	76%		

76%

1.1 The above table and chart show a full breakdown of the undergraduate degrees awarded to all students who completed their degree at Bailrigg, and the proportion of 1st /2:1s, awarded over a five-year period.

1.2

- The proportion of students gaining good degrees coming from areas of the most deprivation as measured by the English Indices of Multiple Deprivation Quartile 1 (IMDQ1) has increased from 72% in 2016/17 to 84% in 2021/22.
- POLAR designations provide a measure of the proportion of young people from a particular area who participate in higher education. The percentage difference between students who are under 21 and come from a POLAR Q1 (Participation of Local Areas Quintile 1 indicating low participation) and attain a good degree compared to those from POLAR Q5 (high participation) was 5 percentage points in 2020/21. With small fluctuations this gap remains stable over the last three years.

Attainment by WP characteristic

- 2. Assessment and Marking Practices
- 2.1 Assessment and marking practices are underpinned by the University's Undergraduate Assessment Regulations², which set out the reference points for judgement of the quality of academic work. Mapping processes ensure that intended learning outcomes are appropriately assessed across modules and programmes.

2.2 Academic Year 2021/22 saw a reduction in

- 4.2 Where the aggregation score falls within one of the borderline classification ranges, the exam board applies a rubric specified in MARP for deciding the degree class to be awarded.
- 4.3 In response to the pandemic, Senate approved temporary changes to the academic regulations in 2019/20, 2020/21 and 2021/22 that provided additional opportunity for students to be awarded the higher degree classification where their aggregation score fell into a boundary range.
- 4.4 Provision was also made to set aside, at cohort level, certain elements of assessment delivered in formats not previously experienced by students and in which students had clearly under-performed.
- 5. Good teaching practices, and learning resources
- In 2019/20, in response to the pandemic, Lancaster developed a website entitled 'Embrace Digital' to support academic staff in the delivery of online teaching. The Embrace Digital website provides a single point of access to information and guidance, supporting:
 - academic staff to use digital technologies effectively in teaching and learning, such as providing guidance for teaching using Teams, dual-mode teaching, digital assessment, and digital accessibility;
 - all staff to improve their digital skills, harness the power of digital technology, and look after their digital wellbeing; and
 - students to use digital effectively in their work and learning, and look after their digital wellbeing.
- In March 2022, Lancaster's Embrace Digital website won the UCISA22 'Supporting Excellence in Learning, Teaching and Research' award.

6. Risks and challenges

The University's Access and Participation Plan, approved by the Office for Students, sets out specific challenges with respect to the performance gap between ABMO/ white UK students and LPN/non-LPN students (see section 1) along with actions to address them.
